

PERCONIX TECHNOLOGIES

Extensive work experience servicing community, government and contractors.

**We build brand awareness through creative designs,
and efficient solutions.**

Custom websites design or enhancement, project portfolio to expand your reach, web portals, dashboards, virtual team solutions, consulting and automation for efficiency.

Featuring **Projects Manager Dashboard** in this presentation...

Projects Manager Dashboard

By Perconix

As a contractor your work naturally lends itself to visual interest. Your online portfolio provides a quick, easy-to-digest snapshot of your services and capabilities. Photos add professional polish to your website, they can illustrate the various services you have completed.

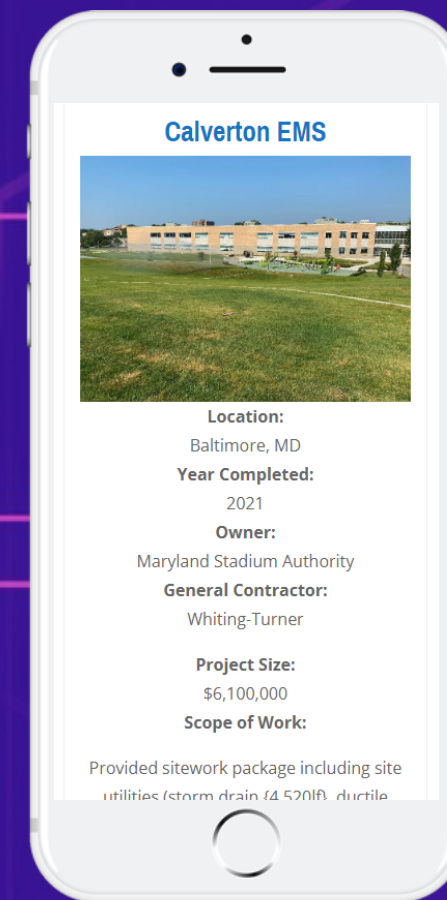

But there's a lot more to it than just adding a typical WordPress gallery. Go beyond that with a photo app that provides a real glance to your completed projects.

Introducing:

Projects Manager Dashboard

By Perconix

Manage your projects photos on your website using a dashboard.

Ready to use with our professional template or we can customize the layout that best fits your brand.

Expand your reach and opportunities with Projects Manager Dashboard
